

DNA Testing Step by Step Process

1) **Make SNP DNA request to Lois Chivilo via email: lochivilo@charolais.com.**

We are looking forward to having the membership order their kits in their on-line program but have not finalized the program as of yet. We will give an up-date on this when the program is ready to go!

2) The fees for the SNP DNA kits are payable to the Canadian Charolais Association and invoiced when the SNP DNA kit is ordered. Once the invoice is paid and kit is requested the DNA sample submission form is emailed or mailed to you.

3) If emailed, open SNP DNA sample submission form from CCA and print it.

4) Collect DNA sample(s). **See Guidelines for Pulling hair or TSU Sample**

5) Mail SNP DNA Submission form with DNA sample attached to SNP DNA Kit from CCA. Then they are mailed to the Lab:

Mérieux NutriSciences (Formerly known as Bureau Veritas)

335 LAIRD RD, UNIT 2

GUELPH, ONTARIO N1G 4P7.

6) Once the submission is received Bureau Veritas processes DNA, generates results and returns data to the CCA Office.

Please contact Lois Chivilo (lochivilo@charolais.com) for more information regarding any SNP DNA Testing.
